CATALOGUING PROCEDURES AND USER GUIDE:
THE SONS OF HANDEL AND THE ANTIENT CONCERTS SOCIETY

This catalogue was produced to fulfill the requirements of the Royal Irish Academy of Music library and to provide researchers with a descriptive and detailed catalogue of each score and manuscript associated with the Sons of Handel and The Antient Concerts Society. For one to be able to utilize the catalogue, one must first understand the methods of cataloguing and the format that the catalogue takes.

The format for this catalogue is derived from three sources: the Royal Irish Academy of Music library’s current cataloguing standards, Anne Dempsey’s catalogue of the Armagh Cathedral Collection, and the Anglo-American Cataloguing Rules. It developed to incorporate the further requirements needed to represent these collections.

For the purpose of this catalogue, printed scores and manuscripts are not separated into individual catalogues. Each item is included in the Main Catalogue. Should any two or more pieces be secured or bound together (a ‘Bound Set’) then these pieces are catalogued separately in the Bound Sets Catalogue. Each piece in the Bound Sets Catalogue has a corresponding entry in the Main Catalogue to facilitate the researcher. Therefore, if accessing a work, the call number may be obtained from the Main Catalogue. However, if looking for a full descriptive and detailed account of an item, then the Bound Sets Catalogue should be referenced. The Main Catalogue entry will refer to the relevant entry in the Bound Sets Catalogue.

---

1 Itself based on Sarah McCleave’s catalogues of the Aylward and Mackworth collections. McCleave, Sarah: A Catalogue of Published Music in the Mackworth Collection (Cardiff University, 1996)
2 One may assume that, in the case of multiple copies, these manuscripts were copied from the scores, so that more performers may participate in the work. Therefore, as they were used together, they should be stored together.
3 The Sons of Handel collection does not contain a Bound Sets Catalogue.
4 The corresponding entry in the Main Catalogue contains minimum information: composer, text author, arranger, uniform title, opus number, main title, subsidiary title and statement of responsibility.
The catalogues are arranged alphabetically according to composer and uniform title. Each entry in the catalogue represents one unique item. Identical items are included in the ‘copies’ field of the relevant entry. Should a score have a different publisher address or publishers imprint (but be identical in every other sense) then this score is catalogued as an entry in its own right. Manuscripts of the same work are catalogued as one entry.

Any information provided in the catalogue in square brackets indicates that it did not originate from the item, but was ascertained from another source. The information within smart brackets refers to the relevant photograph on the accompanying CD.

The following is the layout of the catalogue. All fields may not be relevant in every entry.

5 If items were published at different times, then the items may have been purchased at different times and therefore may have been originally performed at different times.

6 The justification that holds above does not hold here. Two scribes may have been employed to copy works for one performance/rehearsal season, and as no additional evidence may be gleaned from manuscripts of the same work to identify or separate them, they are catalogued together as one item.
Copies or Parts and call numbers.

The following is a description of each of the fields, illustrating positioning on the page, capitalization and punctuation:

**Call number**

E.g. SOH.1.ACI; ACS.4.BAC; ACS.BS.39.4.VAR/59

This field comprises three or four sections. The first denotes the society name, SOH (for Sons of Handel) or ACS (for Antient Concerts Society), followed by BS (for Bound Set) if applicable. The second section, following the full stop, denotes the number of the unique item in the collection ⁷ followed by the number of the instrumental or vocal part within that item group ⁸. The third section, following the full stop, in the Antient Concerts Society Catalogues denotes the first three letters of the composer’s name. The third section, following the full stop, in the Sons of Handel Catalogue denotes the first three letters of the uniform title (as the composer is automatically Handel). The fourth section, only applicable in the Antient Concerts Society Bound Sets Catalogue, denotes the number of the work within the set. In the Antient Concerts Society Main Catalogue, if the call number is not provided, in bold, at the right hand side of the entry, then it is a reference to the Bound Sets Catalogue and the call number appears on the last line of the entry.

**Composer 1, Composer 1 dates**

Additional composer : Composer 2, Composer 2 dates ; Composer 3, Composer 3 dates ; Composer 4, Composer 4 dates.

Text Author / Text Source : Author 1, Author 1 dates ; Author 2, Author 2 dates ; Author 3, Author 3 dates.

Arranger : Arranger 1, Arranger 1 dates ; Arranger 2, Arranger 2 dates ; Arranger 3, Arranger 3 dates.

---

⁷ Arranged alphabetically according to composer and uniform title.

⁸ Arranged according to strict score order hierarchy e.g. (depending on the number of parts extant), flute will be number 1, and cello number 23.
e.g. **Handel, George Frideric, 1685-1759**

Text Author: Dryden, John, 1631-1700; Ramler, Karl Wilhelm [transl.], 1725-1798; [Hamilton, N.].

Arranger: Mozart, Wolfgang Amadeus, 1756-1791.

e.g. **Purcell, Henry, 1659-1695**

Additional composer: Croft, William, 1678-1727.

Arranger: Novello, Vincent, 1781-1861

The definitive version of the composer’s, author’s (of the sung text or libretto) and arranger’s names and dates are taken from the *New Grove Online* or *The British Library Catalogue Online*. The more obscure names etc. are taken from Grove’s 1900 edition of *A Dictionary Of Music and Musicians*, Brown’s *British Dictionary of Musicians* and *Cathedral Anthems* (1895). The composer’s name is placed in bold format, and it is according to this name that the alphabetical arrangement of the catalogue is sorted. Should more than one composer have been involved, their details are included on a new line. Every field of information following the composer’s is indented to emphasize the beginning of each entry. The details regarding the origins of the text follow on a new line. The author of the original text (Author 1), or the origins of the text (e.g. Bible) appears first; those who adapted or translated the text are named following a semicolon, with their specific involvement noted subsequently in square brackets. The arranger’s details follow on a new line. Should more than one arranger have been involved, their details are included following a semicolon. The details of those who provided accompaniment are provided in this field with their specific involvement noted subsequently in square brackets.

**[Uniform Title, Opus No.]**

e.g. [Morning Hymn, Z 198]

The uniform title is the definitive title under which all versions, arrangements or publications of the same work are known. The uniform title for distinctive titles
generally reverts to the original language or that which was used when first published (e.g. the uniform title for *The Seasons* is *Die Schöpfung*). Uniform titles for generic works are constructed using the following information in the order: the genre of the work, in the plural (e.g. Concertos), the instrumentation (e.g. violin), the opus number, the key and if the work is arrangement of the original (e.g. Symphony, No.6, Op.68, F Major, arr.). All indefinite articles are omitted at the beginning of uniform titles to enable the alphabetization of the catalogue. If a uniform title could not be ascertained, the main title was substituted in its stead. The opus numbers are taken from the *New Grove Online* and *The British Library Catalogue Online* and not from the item. Not all opus numbers could be established. Further research and examination of the scores may clarify the identity of many of these works.

**Series Title : Series Title, Series Number**

e.g. Series title : Robert Cocks & Co.'s Hand-Book of Glee, Catches, Canons, Madrigals, Part-Songs &c From the most authentic sources, English and foreign, Including many original compositions. With an ad-lib. accompaniment […] Edited by Joseph Warren.

The series title is included if the item is part of a greater published collection which was sold in separate parts.

**Main Title : Subsidiary Title / Statement of Responsibility. Numbering or Part of Work.**

e.g. Turn Thee Unto Me : Full Anthem for Five Voices / Composed by Dr. Boyce.

---

9 Not all of this information was available at time of submission. The *New Grove Online* and *The British Library Catalogue Online* were referenced in each case.
This is a transcription of the title page maintaining spelling, punctuation and capitals as far as possible. Where words were originally in block capitals, only the first letter of the word is kept capitalized. Information regarding the section or movement of the work, included within the item, which is not specified on the title page is taken from the music and is stated following the transcription.

City of publication 1 : Name of publisher, address of publisher ; City of publication 2 : Name of publisher 2, address of publisher 2 ; City of publication 3 : Name of publisher 3, address of publisher 3 ; City of publication 4 : Name of publisher 4, address of publisher 4 ; City of publication 5 : Name of publisher 5 : {Publisher stamp/imprint} ; {Publisher stamp/imprint 2} ; {Publisher stamp/imprint 3} ; {Publisher stamp/imprint 4}. Plate No.: {Plate No.}.

The publication details are taken from the title page, caption or colophon. Only the essential information is transcribed: the city, name and address of the publisher. In order to clarify this information, punctuation is not maintained. If publisher details are not supplied on the score, but markings are evident then the latter information is prefixed in the catalogue by ‘Publisher markings’.

---

10 For aesthetic purposes, and for ease of reading for the user.
11 Thereby omitting notes e.g. “Where may be had the scores of…”
12 Frequency of commas saturated the phrases in the original e.g. “Novello, 24, Poultry, and 69, Dean St., Soho”.
Local supplier: Local supplier, Local supplier address [dates of the local supplier at this address]: {Local supplier stamp}; Local supplier 2, Local supplier address 2: {Local supplier stamp 2}; Local supplier 3, Local supplier 3 address: {Local supplier stamp 3}.

e.g. Local supplier: Pigott & Co., 112 Grafton Street [1836-66]: {ACS.SS.19}; Robinson, Bussell and Robinson, 7 Westmorland Street [1836-43], Dublin: {ACS.SS17}.

The local supplier information is taken from the stamps and/or labels on the scores. These fields do not refer to secondary publishers or music sellers in general, but to businesses in Dublin that sold the scores. All of the dates have been taken from Barra Boydell’s *Dublin Music Trade to 1900*.

**Medium: Scoring (Pagination)**

e.g. Manuscript ; Orch ([1] 1f, 44p lvs)

The medium specified either score or manuscript. The scoring field outlines the orchestral or vocal parts for which the work is scored. This may not correspond to what the piece was originally written for. The information is taken from the music and not from the title page. Pagination in the Main Catalogue follows the following format: [# of blank leaves] #folio, # leaves.\(^{13}\)

Pagination in the Bound Sets Catalogue refers to the page number within the book, if one was provided by the binder/copyist and follows the following format: ‘page #’. The size in centimeters of the item should be included at this stage, but due to the time restraints of this project, this information was omitted.

\(^{13}\) [#] #f, #lvs
Additional notes

This field includes additional information on each of the items¹⁴ and refers to the relevant photograph on the accompanying CD. The order of information, if relevant to an entry, is as follows:

- Cross-reference: in the Main Catalogue this refers to the full descriptive entry in the Bound Sets Catalogue, or to another catalogue for a related entry: e.g. Cross ref. : ACS.BS.36.VAR/15
- If no title page is extant, where the title information as taken from: e.g. Title information from caption and cover.
- Information regarding the identity of the composer, if not evident or ascertainable from the item: e.g. Composer may be Elliot, James (1783-1856) or Elliot, James William (fl. 1886).
- Description of contents: e.g. Scores ACS.294.28.MEN incomplete.
- Appendages: manuscripts, scores or other paraphernalia found secured to, or originally stored within the item: Manuscript secured with nail to first page of ACS.283.24.MEN : {ACS.fig.192}.
- Binding idiosyncrasies: e.g. Unidentified music used to bind scores ACS.288.3.MEN - ACS.288.10.MEN : {ACS.fig.271}, {ACS.fig.272}, {ACS.fig.273}, {ACS.fig.274}, {ACS.fig.275}.
- Information taken from the publication: e.g. Printed by "Darling & Sons, 126, Bishopsgate Street, Cornhill, London" [colophon].
- Notable anomalies on publisher markings: Two Novello imprints, ACS.pub.46 & ACS.pub.63, on scores ACS.81.1.GRE - ACS.81.20.GRE : {ACS.fig.229}.
- Date and source. All dates follow the format: day month, year (except in the case of Novello imprints which are provided, and therefore transcribed as dd.mm.yy): e.g. Date provided by a scribe : 12 September, 1855.

¹⁴ In the Antient Concerts Society Bound Sets Catalogue, there may be a duplication of information within this field, in different entries. This occurs when the information relates to the Bound Set rather than the piece within it, and so will be duplicated in each entry regarding that Bound Set. In these cases and only within the additional notes section, the call number named will not include the fourth section (i.e. /#), as this specifies the piece within the Bound Set and will not be relevant.
• Copyist / Publishing idiosyncrasies (the omission of clefs, and key signatures etc.): e.g. In some cases, copyist omits clef and key signature after first line of manuscript: {SoH.fig.24}.

• Copyist signatures, initials and/or dating: e.g. ACS.88.5.HAN signed and dated by copyist: {ACS.cp.23}.

• Information on differing copyists, providing a handwriting comparison, where relevant: Handwriting differs between manuscripts: compare {ACS.fig.105}; {ACS.fig.106}.

• Editing idiosyncrasies (e.g. text altered, music altered and the means of altering etc.): e.g. Editing by means of affixing correct music over errors in ACS.175.2.HAN - ACS.175.3.HAN: {ACS.fig.140}; {ACS.fig.141}.

• Performance editing. This field illustrates the methods used to obscure sections or movements of scores and manuscripts: e.g. Performance editing: pages of ACS.175.1.HAN - ACS.175.3.HAN, ACS.175.6.HAN tied together, thereby preventing use: {ACS.fig.268}.

• Bars of music written, included or bound onto the item: e.g. Bars of music written onto score ACS.272.18.MEN: {ACS.fig.202}.

• Notes on the music regarding the performance (e.g. duration)

• General notes on the music (e.g. notes by performers)

• Drawings (e.g. by performers)

• Forces (e.g. number of books, or number of performers as delineated on the item): Instrumental and choral forces delineated on front cover: {SOH.fig.50}.

• Inscription information (e.g. presented to the society and by whom): e.g. ACS.13.2.BEE bears inscription: ‘Presented to the “Antient Concerts' Society” of Dublin by Henry Hudson October 1842’: {ACS.fig.20}.

• Societies or individuals who had possession of the items: Manuscript SOH.5.10.JUD signed by Dr. Stewart: {SOH.fig.10}.

• Other musical societies who had possession of the items.
• Other usage by same society (i.e. a cover used to bind one piece, but originally used to bind another): e.g. ACS label for Judas Maccabeus on inside back cover of SOH.3.9.ALL illuminating details of former, future or simultaneous use by another music society: {SOH.fig.23}.
• Photographic facsimile of important scores: e.g. View original score: {ACS.fig.49}, {ACS.fig.50}, {ACS.fig.51}, {ACS.fig.52}, {ACS.fig.54}, {ACS.fig.55}, {ACS.fig.56}, {ACS.fig.57}.

The SOH and ACS markings fields refer to the photographs which justify the inclusion of the item in the catalogue, including stamps, imprints, labels on covers or inscriptions. The RIAM markings include both stamps and imprints. Other stamps are those whose provenance is, thus far, unidentifiable.

Copies:
Parts:

The copies field lists the call numbers of the items identical to that of the main entry. The parts field lists all of the call numbers of the extant individual parts which correspond to the information in the main entry.15

The following is a list of the abbreviations used throughout the catalogues:

**A**
